

Mini Nail

GALVANISED

Application

The Bremick® Mini Nails are a small nailplate with pre-punched teeth that are used for minor timber connections.

Advantages

The Bremick® Mini Nail provides numerous benefits including:

- **Pre-Punched Nails:** Convenient nailplate that is easily fixed to form a timber connection
- **Sharp Nail Tooth:** Easily penetrates both hard and softwoods.
- **Multiple Applications:** Can be used to butt join narrow timber, furniture manufacture and fasten insulation foil onto timber frame.

Length	50mm

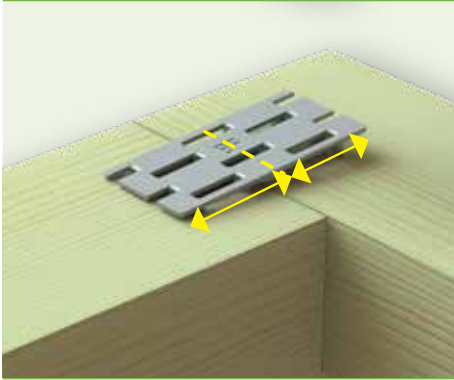

Bremick® Ranging

Product Code	Dimensions	Coating	Pack Qty
TMNG05002510C	25mm x 50mm x 1.0mm	Z275 – Galvanised	Carded - 30

Installation Instructions

1

Locate the Bremick® Mini Nail into position. For butt joining, ensure an equal length on both sides of the joint.

2

Install the Mini Nail by hammering on the top of the nailplate and ensure the plate is flush against the timber.
